

Pick-Up and Delivery Service

Pick-Up Box

SERVICE

Minimize your service and logistics costs with our Pick-Up Box service

Our **Pick-Up and Delivery Service** provides pick-up, repair, and return of your drive units and other automation components. In addition to the Pick-Up Box service, you can utilize a wide range of startup, maintenance, and drive management services with our CDS® maintenance program.

Reduce your system downtime and maintenance labor costs by using our managed maintenance services:

- We pick-up, service, and return drive units
- Custom-scheduled maintenance options
- Reliable repair and delivery times
- Removal and installation of drive units

Pick-Up and Delivery Service is a component of the modular CDS® system from SEW-EURODRIVE.

Have your drive technology units picked up – it's easy with the Pick-Up Box!

You can use our Pick-Up and Delivery Service for service and repair of your gear units and gearmotors. It's easy using our Pick-Up Box. You decide when, where, and how often the Pick-Up Box delivery takes place.

SEW-EURODRIVE's skilled service staff takes care of everything – from providing the Pick-Up Box to scheduling collection, repair and return deliveries.

We maintain Pick-Up Box delivery and return scheduling for you. For rush orders, you can choose express collection to ensure your drive units are back in use as quickly as possible.

Pick-Up Box service benefits

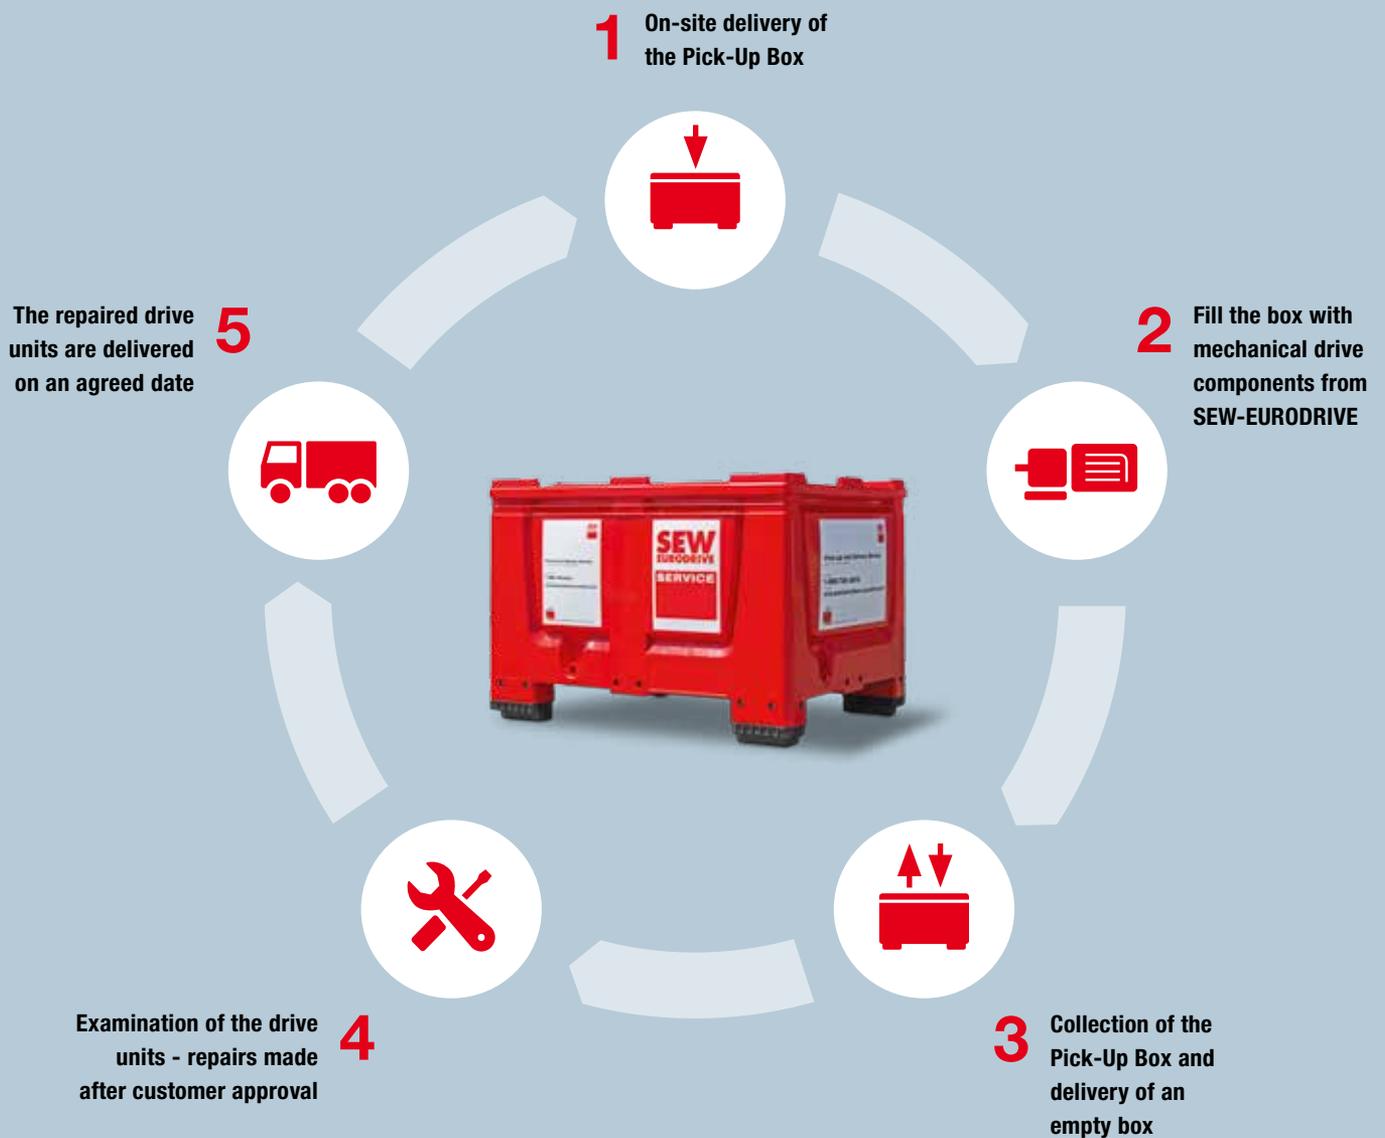

- SEW-EURODRIVE coordinates pick-up and delivery. We ensure your drive components are collected and delivered based on agreement.
- We provide you with a Pick-Up Box free of charge. You can use this as a container for gear units and gearmotors that need to be checked or repaired.
- You decide where and how often the container should be picked up.
- When the full container is collected, an empty Pick-Up Box will be delivered so you always have a container available.
- The units that you want checked will be carefully examined by experienced SEW-EURODRIVE service technicians and, once you have given your approval, service or repairs will be completed.

Pick-Up Box specifications
