SEW-EURODRIVE Now Offers GearOil by SEW-EURODRIVE in Heavy Industry Gear Units

Optimized Lubrication—Engineered by SEW-EURODRIVE, Now Available for Many Large Industrial Drive Applications

Wellford, SC – SEW-EURODRIVE is proud to announce that **GearOil by SEW-EURODRIVE is now available as an option with its heavy industry gear units**. This synthetic lubricant, formulated and tested by SEW-EURODRIVE engineers specifically for SEW-EURODRIVE gear geometries and thermal loads, is now offered as part of the **factory build and service ecosystem** for products such as the **X.e** and **MC-series gear units**.

“This marks a significant evolution in how we deliver our industrial gear solutions,” said Austin Burdette, IG Product Manager, SEW-EURODRIVE, USA. “By offering GearOil by SEW-EURODRIVE directly within our heavy-duty gearbox line, we’re giving customers a complete, performance-optimized system from day one.”

A Fully Engineered Lubrication Solution—From the Inside Out

GearOil by SEW-EURODRIVE is a high-performance synthetic oil designed to meet the mechanical, thermal, and sealing requirements of SEW-EURODRIVE’s most demanding gear units. It ensures longer life, fewer oil changes, and greater thermal stability, especially in applications where uptime is critical.

Key benefits include:

- **Optimized wear protection** from startup through full duty cycle
- **Exceptional thermal performance**—ideal for splash, pressure, or oil-to-air cooled systems
- **System-wide compatibility** - fully compatible with SEW-EURODRIVE’s pressure lubrication systems, splash lubrication configurations, and oil-to-air cooling assemblies.
- **Eliminates the initial 500-hour oil change on X.e and MC-series gear units.**
- **GearOil by SEW-EURODRIVE is now stocked in the U.S.** for simplified service and refill

Now Available in SEW-EURODRIVE’s Heavy Industry Gear Portfolio

GearOil by SEW-EURODRIVE is now available in:

- New builds of **X.e** and **MC series gear units**, and other heavy industrial gearboxes

- SEW-EURODRIVE assembly centers in North America
- **205L (55-gallon) drums** for aftermarket service and planned maintenance
- Available as part of **SEW-EURODRIVE service kits** for long-term support

This integrated solution is ideal for applications such as:

- Mining and aggregate conveyors
- Steel and metals processing
- Pulp and paper manufacturing
- Water treatment and energy systems
- Any environment where uptime and reliability are non-negotiable

To learn more or request GearOil by SEW-EURODRIVE with your next gear unit order, contact your local SEW-EURODRIVE representative or email igssorders@seweurodrive.com. Visit www.seweurodrive.com for product specs and technical guidance.

About SEW-EURODRIVE

Founded in **1931** in Bruchsal, Germany, SEW-EURODRIVE is a **global leader in Industrial Automation**, with operations in **over 50 countries**, **17 manufacturing plants**, **92 assembly facilities**, and **more than 21,000 employees**. The company holds **over 1,000 patents**, continuously driving technological advancements in **garmotors, frequency inverters, servo drives, and Industry 4.0 solutions**.

SEW-EURODRIVE provides engineered solutions in countless industries, including **automotive, food & beverage, pharmaceuticals, mining, steel, logistics, energy, and more**, providing **customized automation solutions** that enhance **efficiency, productivity, and sustainability**. Despite its global reach, SEW-EURODRIVE remains **family-owned**, ensuring **long-term vision, strong values, and a commitment to excellence**.
